

The Red Dot Chest X-Ray Course - for Radiographers Programme

Venue : The Medical Education Centre, Northwick Park Hospital, Harrow.

Content and format: The emphasis is placed on the common / basic CXR problems arising in the Emergency Department. Short lectures are followed by registrants – in pairs – analysing digital CXRs at workstations. The teachers will illustrate the answers using large screen image projection. The answer sessions are fashioned as friendly / informal / question and answer tutorials.
